INNOVATIVE. INVENTIVE. INSPIRED.

For over 140 years, from the time the original Star Razor Company moved to the heart of the Shenandoah Valley, our company has been designing and engineering high quality precision blades. All along, we have provided manufacturers and distributors with specialty blades that improve efficiency and quality so that they can best serve their customers.

With over a century of innovation in blades and bladed tools behind us, we have our eyes firmly focused on the future. We are constantly evolving our capabilities to meet the needs of classic trades, professionals and DIY fans. We are never satisfied looking back, and always looking to improve.

DESIGN. TEST. BUILD.

The people of AccuTec Blades work hard and work smart to anticipate the needs of our customers. We even design and build our own testing equipment so we can prove our blades' and tools' performance. We are committed to the future of the trades and industries we supply.

Our expertise crosses many fields. We are a proven global innovator in diverse areas: blades and tools for carpet, paint, automotive, manufacturing and more. We apply our research and learnings from all of these industries to drive one passion: making the best blades and tools so people can do amazing work.
